Jason Wick
Guardian Pest Control, Inc.
701 E 4th St
Duluth 55805-2059

Dear Jason,

Thank you for renewing your Associate Certified Entomologist-Pest Control certification. Your credentials as an ACE are a clear way to demonstrate to employers, customers and colleagues that you have worked hard to develop and maintain your skills as a pest management professional.

In addition to your inclusion in the online roster of ACEs found at www.entocert.org, please tear out and use the wallet card below as an official record of your certification. We recommend laminating the card for improved durability. As a reminder, to remain certified, you must continue to hold a pesticide applicator's license in at least one state and you must continue to adhere to the ACE code of ethics (www.entocert.org/ace-code-ethics). If requested by a Certification Board auditor, you may be required to show proof of licensure at any point during your certification.

Please find below all of your important ACE information.

ESA ID Number: 63847, ACE Number: A0631

ACE certified since: 1/31/2013

Next ACE Certification Renewal Due: 1/1/2020, CEUs to attain before renewal: 18 (more details at www.entocert.org)

We are always looking for ways to improve the ACE program for you and for the industry. We welcome your feedback and questions at any time. Again, thank you for maintaining your professional status as an Associate Certified Entomologist.

Sincerely,

Chris Stelzig
ESA Director of Certification

Entomological Society of America (ESA) Associate Certified Entomologist Program

Jason Wick
